DETAILED ACTION

1. The Amendment filed on September 25, 2002 has been entered.
2. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on September 25, 2002 have been disapproved because they introduce new matter into the drawings. 37 CFR 1.121(a)(6) states that no amendment may introduce new matter into the disclosure of an application. The original disclosure does not support the showing of lever mechanism as shown in the new Fig. 9.

Election/Restrictions

3. Claims 1, 15, 20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Group and Species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 6.

Drawings

4. The drawings are objected to because the bordering and other superfluous details not directed toward the invention, e.g. legend, in Figs. 1-3 should be deleted. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.
5. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "lever mechanism" (claim 14) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

6. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "90" and "92". A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

7. The disclosure is objected to because of the following informalities:
- i. P. 4, the alternate embodiment description for Fig. 9 as well as the brief description for Fig. 9 are not understood when "Fig. 9" has not been approved for entry.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

8. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

9. Claims 2-14, 16-19, and 21-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject

matter which applicant regards as the invention. The claims are replete with vague and indefinite language. The following are some noted examples.

- i. Claim 14 is vague and indefinite in that it is not clear what the claim encompasses. Where is this shown in the drawings?
- ii. In claim 17, l. 1, the phrase "in a" should read -- is a --.
- iii. In claim 19, l. 9, the phrase "can be..." is vague and indefinite in that it is not clear whether the relevant features are able to perform this function. In l. 10, the phrase "an anchor component" is vague and indefinite in that it appears to be a double inclusion of the same previously recited. Substantially the same applies to claims 21-22.
- iv. In claim 21, l. 11, the phrase "...said member an said anchor..." is grammatically awkward. What is the phrase referring to?

Response to Arguments

10. Applicant's arguments with respect to claims 2-14, 16-19 and 21-30 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
